## Where and How to Register for Prerequisite Courses

---

**Save money** and enroll for prerequisite coursework **right here in the Valley of the Sun.**

The Maricopa County Community College system (one of the most reputable and largest community college systems in the United States) offers all of the prerequisite coursework that we require for our ND program. These courses are taught at the required content level, offered a multiple number of times a year for convenience, and best of all are extremely affordable – even for out of state students. Many students enroll for the two semester summer session and complete up to four prerequisite courses prior to matriculating in the Fall!

For detailed information regarding their course schedules, locations, costs, and how to register, please see their website at: <http://www.maricopa.edu/>. Below you will find a list of classes that are accepted for fulfilling the ND prerequisite course requirements. We highly recommend that you take as many of the high level sciences courses as possible in order to help you succeed when you are a student at SCNM. For additional courses that may not appear on this list, or for other questions, please do not hesitate to contact your Admissions Representative at: (480) 858-9100.

### Biology

- BIO181 General Biology I
- BIO182 General Biology II
- BIO201 Human Anatomy & Physiology I
- BIO202 Human Anatomy & Physiology II
- BIO205 Microbiology
- BIO241 Genetics
- BIO245 Cellular & Molecular Biology

### Chemistry

- CHM117 General Chemistry for Majors I
- CHM118 General Chemistry for Majors II
- CHM151 General Chemistry I
- CHM152 General Chemistry II
- CHM230 Fundamental Organic Chemistry
- CHM235 Organic Chemistry
- CHM260 Fundamental Biochemistry
- BCH361 Principles Biochemistry (this and CHEM260 can be used as Biology, Chemistry, or Organic Chemistry, but not for more than one requirement)

### Physics

- PHY111 General Physics

### We do NOT accept the following courses:

- BIO100 Concepts of Biology
- BIO107 General Biology for non-majors
- BIO108 General Biology II for non-majors
- BIO156 Human Biology for Allied Health
- BIO162 Microbiology Concepts for Allied Health
- CHEM130 Fundamental Chemistry I
- CHEM131 Fundamental Chemistry II
