

# Southwest Naturopathic Medical Center Contraception Clinic

## Women, make your appointment today!

### Make an appointment and learn about your birth control options

- Get current information on birth control options, including hormonal methods (the pill, the patch, NuvaRing), barrier methods (diaphragms, FemCap), and surgical options.
- Identify the best birth control method for you depending on your needs and lifestyle.
- Prescriptions will be given for hormonal birth control methods and emergency contraception (the morning after pill). Fittings for diaphragms and the FemCap can be done at the same appointment.

**Cost: \$30.00**

(Cost does not include the fee for the birth control)

Patients will be seen by advanced medical students with the direct supervision of a Naturopathic Physician.

- Nearly half of all pregnancies each year are unintended.
- The typical American woman wants and has two children. She, therefore, spends roughly thirty years of her life trying to avoid becoming pregnant.
- Approximately 19 million new cases of sexually transmitted infections occur per year.
- Arizona's teenage pregnancy rate ranks **2<sup>nd</sup> nationally**.
